IN DEDICATION AND MEMORY

DEBRA PERRY 1956-1969

The sweetest of little girls,
The brightest of cheery smiles,
The best of tender memories
Will last us all our lives.

FACULTY

MELVIN C. HOLLAND

SUPERINTENDENT

Everyone can benefit from a plan of living. It is not easy for a student to grow into the type of adult he or she wants to be. I would like to share, with the hope that they will be of some help to you, some principles that have helped to guide my life.

PRAY. Prayer has been the greatest source of help in my life.

BELIEVE IN YOURSELF. Believe in the principles of your religion, your parents, your country, in people, and particularly in yourself.

BE HONEST. It is not always easy to be honest, but if you are honest with yourself first, you will have to be honest with everyone else.

WORK. One of the greatest blessings under the American Constitution is your right and freedom to work.

SAVE. Only through saving can you build your resources to help you in the future.

SHARE YOUR BLESSINGS. If God has given you abundantly, you should share your blessings with those less fortunate. This does not mean material things alone. Kindness, consideration and sympathy always mean so much to others.

BE A GOOD CITIZEN. Learn what it means to be a true American and then when you can - vote.

LOVE YOUR COUNTRY. I say humbly and sincerely that I love this land of ours more than anything in this world.

Treasures in this world are scarce, but compiled here are many treasures. The Yearbook Staff and Sponsor have also given you many treasures of great value.

I would like to take this opportunity to thank the faculty and student body for the success of the 1969-'70 school year.

We thank each of you who have had any part in the 1970 edition of the SMOKE SIGNAL. It is always a challenge to put together a book which actually pictures the year's activities. Of course, we have failed to get some of the most important events, and we managed to get the worst possible picture of "You." We do hope, however, that the book will be a source of enjoyment now - and in the future - as you "look" a memory.
